

Chief Engineer, East Coast Bureau

16 Nov 1948

Chief, PHIB

Commendation for Morse Coverage

25X1 I desire to congratulate you and your staff for your excellent coverage of the Tass Morse transmission of Molotov's long report of 6 November 1948. I wish you to convey my commendation particularly to [redacted] who, I have been informed, copied the transmission almost without interruption for some eleven hours with a high degree of accuracy and completeness. The exercise of initiative and strenuous effort upon such particular occasions as this one reflects favorably upon the East Coast Bureau and upon the entire Branch.

L. K. WHITE
